Career Profile

Software Engineer with professional experience developing and modernizing enterprise applications using C#, .NET, Blazor, SQL Server, and REST APIs. Background in full-stack development, legacy system modernization, unit testing, secure coding, and cross-functional collaboration.

Professional Experience

State of Washington, Department of Social and Health Services | Olympia, WA Dec 2023 – Present

Software Engineer, Division of Child Support

- Develop and maintain enterprise web applications using C#, .NET, ASP.NET Core, Blazor Server, SQL Server, HTML, CSS, and JavaScript.
- Build and integrate RESTful APIs to improve connectivity and data flow between modern applications and legacy enterprise systems.
- Modernize legacy applications and workflows to improve maintainability, usability, security, and long-term supportability.
- Collaborate with business analysts, stakeholders, and senior engineers to gather requirements, evaluate implementation options, and contribute to application design decisions.
- Write and maintain unit tests, participate in code reviews, troubleshoot application issues, and implement secure coding improvements.
- Use AI-assisted development tools to support coding, debugging, analysis, and solution development while reviewing and validating generated output.
- Contribute to development planning by estimating work, communicating progress, testing changes, preparing technical documentation, and supporting application deployments.

Education

Bachelor of Science (B.S.) in Software Development,
June 2023

Completed

Western Governors University | Salt Lake City, UT

Skills

Languages & Frameworks: C#, .NET, .NET Framework, ASP.NET Core, Blazor Server, SQL, HTML, CSS, JavaScript, Python (basic)

Development: REST APIs, API Integration, Object-Oriented Programming (OOP), Unit Testing, Secure Coding, Code Review, Legacy Application Modernization

Tools: Visual Studio, VS Code, Git, GitHub, GitKraken, AI-Assisted Development

Databases: SQL Server, PostgreSQL, SQLite

Practices: Agile Development, SDLC
